

**Texas Commission on Environmental Quality**  
**Table 30-R**  
**Permit Renewal Fees**  
**Title 30 Texas Administrative Code §116.313**

**Renewal Fees** - Each permit renewal requires an application fee that is based on the annual allowable emissions represented in the application. The total emissions must include those represented in any permit by rule (PBR) or standard permits rolled into the renewal or increases associated with a concurrent amendment application. The following table may be used to calculate renewal fees.

To calculate the fee, multiply the number of tons in excess of the minimum limit of the appropriate category by the incremental fee, then add this amount to the base fee. For example, if total emissions of all air contaminants are 50 tpy, the total fee would be \$1,993 (base fee of \$1,265, plus incremental fee of \$28 x 26 tons or \$728).

**RENEWAL FEE SCHEDULE**

If the sum of all emission rates (tpy) on Table 1(a) is:		
Equal to or OVER	But NOT over	The renewal fee is:
0	5	\$600.00
5	24	\$600 + \$35/ton for the amount over 5 tpy
24	99	\$1,265 + \$28/ton for the amount over 24 tpy
99	651	\$3,365 + \$12/ton for the amount over 99 tpy
651	No Limit	\$10,000

Enter the total number of tons per year of emissions to be covered by the permit renewal:

**The renewal fee is** \_\_\_\_\_

*Fees are due and payable at the time the renewal application is filed. No fee will be accepted before the permit holder has been notified by the commission that the permit is scheduled for review. All permit review fees shall be remitted by check, certified check, electronic funds transfer, or money order payable to the Texas Commission on Environmental Quality (TCEQ) and mailed to the TCEQ, P.O. Box 13088, MC 214, Austin, Texas 78711-3088. The required fees must be received before the agency will consider an application to be complete.*
